Verify-ED Credentials Verification Services Introduces

Verify-ID

Montclair, NJ - June 25, 2007

Verify-ED introduces Verify-ID, a premier feature that **reduces risk** and eases the credentials verification process.

Verify-ID lets job applicants enter their own sensitive data directly to our secure system. This eliminates unnecessary (and sometimes unsafe) handling of Social Security Numbers and Dates of Birth, thus **reducing your exposure to liability**.

Pre-Hire Requirements

Many institutions need Social Security Numbers and Dates of Birth to confirm identity. Asking your search subjects and job applicants for this information is a necessity.

Why take chances handling this data, especially at the pre-hire stage? **Let Verify-ED do it for you!**

About Verify-ED

Verify-ED is an FCRA-compliant CRA specializing in **Credentials Verifications** and **Credentials Audits**. We conduct verifications throughout the world!

Credentials Verifications are primarily done at the pre-hire stage, when you are considering a person for employment. You want to confirm that the applicant has the degrees and certifications listed on their résumé, in addition to their employment experiences.

Credentials Audits are done to confirm the credentials of your current staff. Avoid potential liability by conducting an audit of your staff, especially for those who interact directly with clients and the general public.
