Questions & Answers

Q: I often see "No answer" in the notes for international searches. Why?

A: There are two reasons for this: 1) most schools do not have voice mail and the ones that do aren't very good about returning calls; 2) many international schools do not view verifications in the same manner as the U.S. and Canadian schools, so we often have to make numerous calls before we make contact with the correct person. Both reasons severely affect our ability to complete searches in a timely manner.

This is why candidates who use **Val-ID-ate** are greatly appreciated by prospective employers!
